The unique voice feature that everyone's talking about...

FVP10 is the first operating POS printer to provide speech functionality with up to 255 voice commands. The audio can be streamed directly from the PC.

There is a default library of voice commands such as "Please take your receipt" or "Food order coming in" but more can easily be recorded in any language using STAR Sound Tool so that the printer is in fact multi-lingual!

Warm Reminder

There is an internal speaker with an audio jack for very noisy environments where external speakers may be necessary.

This feature makes it an invaluable tool for members of staff and customers alike.

► Front Loading

Unique front loading drawer style true "Drop-In & Print" paper loading. The square design, front operation and flat top provide a space-saving opportunity as objects up to 7 Kgs can be placed on top of the printer without interfering with its operation.

With the shelf mount option, FVP10 can be discreetly mounted under a counter or sales desk providing a bigger counter space for operation.

► Voice Function

Providing speech functionality with up to 255 voice commands. The audio can be streamed directly from the PC using STAR Sound Tool.

There is an internal speaker with an audio jack for very nosiy environments where external speakers may be necessary.

► High Quality & Reliability

High quality 203dpi output with high print speed of up to 250mm/s combined with fast, efficient throughput
(406 X 203 double density selectable)
